

SolvNet® Application Notes

TCAD Sentaurus application notes are available for downloading from the Synopsys FTP server. A complete list of available application notes, with brief descriptions, is available from SolvNet.

TCAD Sentaurus application notes are added continually to SolvNet for the current release. Check SolvNet regularly for updates.

Accessing Application Notes from SolvNet

To access the application notes from SolvNet:

1. Click the link <https://solvnet.synopsys.com/retrieve/026036.html>.
2. Enter your SolvNet user name and password.

The *List of Available TCAD Sentaurus Application Examples and Notes* is displayed. This presents an up-to-date index of application notes.

Accessing FTP Server Directly

To access the FTP server to download the Sentaurus Workbench simulation project files (gzip) for the application notes, for a given release:

1. Click one of the links for the version required:
https://solvnet.synopsys.com/redauthftp/cafe/TCAD_Sentaurus_Applications_H-2013.03
https://solvnet.synopsys.com/redauthftp/cafe/TCAD_Sentaurus_Applications_G-2012.06
https://solvnet.synopsys.com/redauthftp/cafe/TCAD_Sentaurus_Applications_F-2011.09
2. Enter your SolvNet user name and password.
3. Re-enter your password, and click **Submit Query**.
4. In the FTP window, right-click the gzip file required, and select **Save Target As**.
5. Download the file to a directory below your TCAD Sentaurus root directory (STDB).
6. Refresh the Sentaurus Workbench projects browser, and open the downloaded project.

To access the PDF documentation in Sentaurus Workbench:

1. Open the project.
2. **Project > Properties > Documentation**.
